EDUCATION

Camarines Sur Polytechnic Colleges – Main Campus Nabua, Camarines Sur
Bachelor of Science in Computer Science 2021 – 2025
Awards/Honors: Dean's List 1st Semester (2023-2024) **GWA**: 1.44
Dean's List 1st Semester (2024-2025)
Certificates/Eligibility: Career Service Professional Eligibility (2025)
Related Coursework: Software Engineering, Data Structures and Algorithms, Database Management, Information Security, Artificial Intelligence

PROFESSIONAL EXPERIENCE

Web Developer (WFH) **Cadiz City, Negros Occidental**
Syd Solution Tech October 2025 – November 2026
- Develop responsive web applications and business modules using Angular, Next.js, React, TypeScript, and modern frontend practices.
- Build reusable interfaces and integrate backend services for ERP, e-commerce, POS, and SaaS workflows.
- Collaborate with cross-functional team members to deliver maintainable features focused on usability, responsiveness, and performance

Policy Development Group Programmer Intern **Nabua, Camarines Sur**
AI Research Center for Community Development (AIRCoDe) March 2025 – April 2025
- Assisted in software and research-related development activities.
- Supported software, research, and policy-development initiatives through programming and technical tasks.
- Collaborated with team members to complete assigned development activities and project deliverables.

Software Digital Tester (Freelance)
uTest | March 2024
- Performed functional and usability testing, documented reproducible defects, and contributed structured findings to improve software quality

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript
Frontend: Angular, React, Next.js, React Native (Expo), Tailwind CSS
Backend & Data: Node.js, Flask, Prisma, PostgreSQL, MySQL, Supabase
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn
Tools & Platforms: Git, GitHub, Vercel, Stripe, Resend, VS Code, Cursor

PROJECTS

Shopee Customer Preference Analysis (Thesis) | Python, Streamlit, scikit-learn
- Developed an interactive data-mining application for bicycle-parts reviews using K-means clustering, Apriori association rules, and Naive Bayes sentiment analysis.

Duola (Birthflow)| Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS
- Contributed production-ready features to a multi-tenant SaaS platform for doula agencies, including responsive interfaces and backend integrations.

SYD Commerce | Next.js, React, TypeScript, PostgreSQL, Prisma, Tailwind CSS
- Developed a full-stack e-commerce platform featuring product catalog management, user authentication, shopping cart, and order management.
- Built responsive and reusable UI components while optimizing performance and user experience.
- Integrated PostgreSQL with Prisma ORM following scalable full-stack development practices.

SYD POS (Point of Sale System) | Next.js, React, TypeScript, PostgreSQL, Prisma
- Built sales, inventory, cash-drawer, transaction, reporting, approval, and role-based access workflows for store operations

Onad Motorshop Website | Angular, TypeScript, Tailwind CSS
- Designed and developed a responsive business website for a motorcycle repair and parts shop.
- Built reusable Angular components and interactive interfaces.
- Improved responsiveness, performance, and accessibility.

TrackApp | React Native, Expo, TypeScript, SQLite
- Built a mobile ledger for sari-sari store merchants with wallet balances, customer debt tracking, transaction guardrails, offline persistence, and CSV export.
